

create_forges_stat

```
graph TD; A[create_forges_stat] --> B[get_info_pm]; B --> C[get_links]; C --> D[get_info_gh]; D --> E[get_info_swh]; E --> F[make_figures]; F --> G[all]; A --> F;
```

The flowchart illustrates a sequential process starting with 'create_forges_stat' (yellow box). It branches into two paths: one through 'get_info_pm' (blue box), 'get_links' (red box), 'get_info_gh' (green box), and 'get_info_swh' (green box) to 'make_figures' (orange box); and another direct path from 'create_forges_stat' to 'make_figures'. Finally, 'make_figures' leads to 'all' (teal box).
